STATE OF MAINE.

OFFICE OF SECRETARY OF STATE,
Augusta, March 1, 1866.

CIRCULAR.

THE Act of the 23d of February last, providing pensions for certain classes of disabled soldiers and the widows and minor children of those deceased) of the War of 1861, will necessarily impose upon the State Department duties somewhat analagous to those of the Pension Bureau at Washington, though of a comparatively limited character. Considerable time will therefore be required by the Council in which it is vested the supervision of this new department of business, in determining the mode of procedure and preparing the requisite blanks therefor.

Early in the ensuing May session of that Honorable body, forms and regulations, with a copy of the law, will be promulgated.

Applicants under this statute, who are, or may be, in the receipt of a pension from the United States Government, will not require the assistance of agents or attorneys in preparing or presenting their claims for the State pension.

Secretary of State.

MUTTY'S

Friction Feed Roller,

FOR CIRCULAR SAWS.

PATENTED JANUARY 23d, 1866.

THIS INVENTION is applicable to all Circular Saws provided with stationary tables and used for re-sawing lumber.

It reduces the labor of sawing one half, and fifty per cent. more lumber can be sawed with, than without its use. It is applied without change of existing machinery; is not liable to get out of repair, and not expensive to apply.

It has been in practical use on the Penobscot river for one year, where the above facts have been fully and satisfactorily demonstrated, as is shown by the certificates of master mill-men, machinists, owners and operators of mills appended hereto.

The undersigned have for the past season witnessed the practical use of MUTTY'S FEED ROLLER in re-sawing lumber, and we cheerfully recommend it as a practical, economical, and labor-saving invention, destined to come into general use in all cases where lumber is re-sawed upon stationary tables. We are fully satisfied from our own observation that the saving effected, and extra amount cut, by its use, is fully as large as the estimate above given.

TELEGRAPHIC.

Despatches to the Evening Times.

From Washington—Later from Europe—The Proposed Celebration at Richmond, Va.

NEW YORK, April 2.

The steamship City of Paris has arrived.

In the House of Commons Earl Grosvenor gave notice that in the second reading of the Reform bill he would give an amendment declaring it inexpedient to discuss the bill until the House had before it the entire reform scheme contemplated by the Government.

Sir W. Hutt only gave notice of an amendment to the present bill taking effect until provision is made for the re-distribution of States.

The London Times says:

Lord Stanley will second Earl Grosvenor's amendment, and predicts independent support for it, and hopes it is not too late for the Government to bring forward a better bill.

The Morning Post believes the amendment will prove the death blow to the Ministry.

The Daily News and Star regard it as an insidious movement, as nothing but opposition to reform, and says the conservatives dare not move a direct negative to the measure.

A Paris telegram of the 20th, to The Daily Telegraph, reports on good authority that Head Centre Stephens had just arrived in Paris, having been in Scotland.

The conference in the principalities held a second meeting in Paris on the 19th.

The Corps Legislatiff, after rejecting another proposed amendment relative to the press, adopted the entire address by 251 to 17.

The bourse closed firmer. Rentes 68f 67c

A Vienna telegram asserts that declarations of a reassuring character have been received from Berlin, and apprehensions of a war rumored. It is stated that the Gastein convention will be adhered to. The London Morning Post believes this statement to be unfounded, and that the relations continue critical.

Rio Janeiro, Feb. 23th—A battle has been fought without decisive result between the Argentine and Paraguayan armies. The loss was very heavy on both sides.

Coffee 7200 a 7400 for good firsts.

London, March 21st—The stock exchange was gloomy on the 20th, though at the close more favorable accounts from Germany put affairs in a better condition.

COMMERCIAL.—Liverpool cotton market, March 21st. The cotton market on Monday was firm at full prices.

The late rebel steamer Shenandoah was sold at auction for £15,750.

The steamer Tripoli left Liverpool on the 30th for New York, and the Scotland on the 31st.

The following is a summary of the news per Trioli.

In the House of Commons the Irish Attorney General denied that the Lord Lieut. had stated that he apprehended a Fenian invasion.

Several Londoners had applied for permission to arm and drill their tenantry, but the government refused consent, feeling perfectly able to afford every protection.

The London Times admits that frightful and unjustifiable cruelties were committed in America, and that there was an abuse of power beyond all excuse or palliation.

The Paris Patrie denies that the French Government has consented to extend the period of the extradition treaty with England.

In the Corps Legislatif the amendment to the address in favor of the extension of liberties had been strongly debated, several speakers demanding increased liberty for the public, the press and the Chamber. The amendment was rejected, 200 against 63.

The German journals continue to represent the relations of Austria and Prussia as very threatening. They even assert that Austria had ordered the assembling of 100,000 troops on the Bohemian frontier, and sent a circular note to the powers, disclaiming all responsibility for the consequences of any conflict which may ensue.

The London Times directs attention to the critical state of affairs. It says:

Bismark has thrown off his mask and the duchies are to be annexed to Prussia.

Preparations for war were progressing on both sides! In both capitals military councils are held, generals nominated and plans of a campaign discussed.

Funds are depressed in the various European markets by disgusting rumors.

Bombay, March 13th.—Cotton advancing Shipments for the fortnight 70,000 bales.—Exchange 2s 1⅝d.

Calcutta, March 22.—Markets steady.—Exchange 2s 1½d.

[Latest via Liverpool.]

Liverpool, 21. The Post says it has reason to believe that the telegraphic reports to the effect that since Sunday, declarations of a reassuring character, had been received from Berlin by the Austrian government that apprehensions of a war between the Great German powers had been thereby removed, are totally incorrect.

The relations between the two powers continue very critical.

NEW YORK, April 2.

Arrived—Steamship Evening Star, from New Orleans.

NEWARK, N. J., April 2.

Senator Wright started for Washington this morning to resume his seat.

WASHINGTON, April 2.

The National Republican says:

There is a report that the Government has interfered with the proposed celebration by the colored people of Richmond of the anniversary of the capture of that city. We have authority for saying that neither the President nor General Grant has interfered in any manner. The subject is entirely within the control of Gen'l Terry, who is a man of safe judgment, and being on the ground, knows best what to do. He is authorized to act prudently in the event of any unnecessary or illegal disturbances of the peace, on either side.

AUGUSTA, Me., April 2.

The ice in the Kennebec river commenced breaking up yesterday, and is going out. It will be open to navigation shortly.

WASHINGTON, April 2.

Senator Fessenden to-day reported from the Committee on Finance the House Loan bill without amendments.

NEW YORK, April 2.

The Commercial says:

The stock market is excited but vacillating. A strong bear clique is still hammering the market, chiefly through the sales of Erie, under which the price fell this morning to 73. Strong efforts however are made to resist these operations by the bull side, with some success. Michigan Southern ⅛c higher, and Rock Island 2¼c; Fort Wayne was weak and fell ⅛c; Governments active and rather weak; 5-20's ⅝; 7-30's steady.

Gold continues exeited, the short interest being yet unsettled.

Exchange dull. Sixty days sterling 106¾. Money in increased demand. Call loans 6 per cent. Discounts firmer; none below 7 per cent., but less inquiry

"THREE-FOURTHS OF THE CRIMES." An exchange says: "One of our Grand Juries, in a recent presentment, traces three-fourths of the crimes committed to the immoderate use of intoxicating liquors. This is indeed a serious record, but it only tells a part of the evils of all kinds which follow in the train of intemperance. Criminal courts and prisons are full of warning on the subject. But we must go further, and visit hospitals and lunatic asylums, and alms-houses, and charitable institutions of all kinds, to learn the numerous diseases of body, the mind, the physical and moral degradation, assuming all forms and colors, of the victims of intemperance. Genius, beauty, graces of body and mind, high station, science and honest religious professions have all in turn yielded to the temptation of the intoxicating bowl, and have fallen, disfigured, and disgraced, into 'the slough of despond,' with a loss of all the better traits of humanity,—with a loss of all the better traits of humanity. They who once walked the earth a little lower than the angels have sunk below the brutish swine.

"What shall be done to produce an ebb in the wide-spreading flow of intemperance which threatens to sap the pillars of the State? Passing over the consideration of other means, we would say that much might be accomplished by the earnest teachings of the physiologist and hygeist, which would show that intoxicating drinks are especially pernicious to the young and those just reaching manhood, and that the habitual use of these drinks, even in what is called moderation, places the drinker an imminent danger of becoming a confirmed drunkard. Society will find much more certain protection than in repressive law, by inspiring its members with the moral fortitude, the result of suitable inculcation and example, which will enable them to strive against the formation of such habits and to shun all temptations."

THE FISHERIES. Since the repeal of the Reciprocity Treaty many of the newspapers are anticipating trouble with Great Britain on account of our fishing interests. Probably England will be slow to provoke a war with the United States. The great military experience gained during the late war, the immense fleet of iron clads and other war vessels acquired, as well as internal fear of the Fenians, will tend to make them slightly cautious how they stir up the monkeys.

NEW RAILROAD TICKET SYSTEM. One of the New Hampshire Railroads is about to adopt the following ticket system, with the view of insuring a correct return of all fares taken on board the trains. Hereafter a charge of twenty cents extra will be made upon all fares paid in the cars, and the passenger so paying will receive a check from the conductor entitling him to a return of that amount upon its presentation at any ticket-office named upon the check.

A BANK NOTE "PAYABLE IN HEAVEN." The state treasurer of Indiana recently received, in a package of money from the treasurer of Ross county, a twenty dollar bill, signed by the treasurer of the United States, made payable in Heaven, and with the Angel Gabriel's name affixed as cashier. The note was issued by the national bank of Jeffersonville, and is printed from a genuine plate. The bank, however, refuses to redeem it, and a suit will be brought for its recovery.

A STRONG ROOM. A strong room recently constructed for a London bank is thus described: The walls, two feet thick, are formed of hard bricks laid in cement, and with hoop iron worked in. The room is lined throughout with wrought iron half an inch thick.—There are two doors—the outer a strong iron one with two locks, and the inner one of combined steel and iron of extraordinary strength, with two locks, throwing ten bolts. A safe placed inside, weighing eight tons and throwing twenty bolts, contains the cash and securities. An alarm in the resident clerk's bedroom is attached to the inside of the strong room, so that if the outer door is opened a gong is set going. A porter sleeps on a bed in front of the outer door, and by pulling a handle he can set the alarm off if necessary, and there is a watchman always on duty.

Mr. Joseph Haskell, of Auburn, has been a Superintendent of a contraband School near Norfolk, Va., the past few month. He has just returned home and reports that the contrabands exhibit remarkable anxiety to learn and learn with wonderful ease. He says the bitterness of the whites to Union men and the government is most intense.—The F. F. V's, he says, were willing to own that a Yankee was as good as a nigger when Lee surrendered, but now they won't give the irrepressible Yankee so good a chance or name as the negro. Mr. Haskell has the witness of his own eyes as to the serious injury President Johnson's policy is doing in the South. It is with mingled shame and indignation that loyal people everywhere witness these things.

Correspondence of the Whig and Courier.

JACKSONPORT, Ark., March 6th.

Here I am in the unregenerated, unreconstructed State of Arkansas, or "Arkan-*saw*" as the natives pronounce it. This is my second visit to this part of the country—once before, during the actual war, and now during the nominal peace. You will very naturally inquire what difference, if any, I find in the state of affairs, so far as relates to the feelings of the people in relation to the Union *per se*, and to their "conquerors," for that is the light in which they generally look upon the people of the old free States, the universal and detestable Yankee. I find among the people, of low and high degree, a general hatred of Northern men. This feeling is frequently expressed in malignant terms, not to officers or men in the service, but to those Northern men who are travelling through the country with reference to business or settlement, and to those few who have been faithful to their country during the war. Threats are freely indulged in towards such men, and they are informed that when the troops are removed, as they hope they will be very soon, and the people (alias "rebels") are left, "unawed by power", to do as they please,—then their cases will be attended to without delay. When the good time comes for which these traitors look and wait so anxiously, and when they whose *right* it is to govern (in their opinion) will have power, then the property and lives of those who have been loyal to freedom in the great struggle, will not be worth a farthing—of which all such will take due notice and govern themselves accordingly.

The result of my inquiries and observation, so far, goes to show that Northern men in business in this State, with but few exceptions, are of the Copperhead species, and they are worse now, so far as their influence goes in the matter of reconstruction on any decent plan, than the out and out rebels.—They (the Cops) are eternally prating about the constitutional rights of the South; while many of the old rebels do not claim any such rights, but simply set themselves back in the harness, without any attempt to pull, and all the time kicking like the d——l and showing all the peculiarities of their illustrious friend generally.

No individual suspected of the least affection for the old flag, can have any show for a public office by the side of a returned rebel. Even the Copperhead Northern men, who have opened stores here, are obliged to employ ex-rebel lieutenants and captains for clerks, or even *they* would languish in idleness.

All the steamers navigating the rivers of this State are officered throughout by returned rebels. On the steamer on which I came from De Vall's Bluff to this place, I found a one-legged mate, whose only qualification for the place seemed to be the fact that he lost a leg in the rebel service, and could damn and abuse the negro hands most vigorously. A captain and principal owner, who has been running one of the White river boats up to a month since, was quasi Union, neither hot nor cold, and thought to go along on that record; but he had to yield and either put a man in command who is fresh from rebel atrocities in Andersonville, or give up a highly lucrative business.

Such manifestations are unmistakeable, and show the animus of the mass of the people—which is, as I have said, intense hatred of the "Yankee", by that generic name meaning the loyal people of the North, not the "Knight of the Golden Circle".

The Freedmen's Bureau is the Ark of Safety, at present, for the Union men, white and black, of this as well as the rest of the Southern States. Congress showed its wisdom and just appreciation of affairs in this part of the country, when it established this beneficent institution—and Gen. Howard, of whom Maine should be proud, has, by his successful administration of its affairs, won for himself additional laurels, not less valuable than those obtained on the battle-field. Without such protection as the Bureau affords, no *real* Union man would be safe in person or property for an hour, in any Southern State. The whole country would be given up to the rule of cut-throat villains. I have met many men who came here, years since, from Northern States. They have lost slaves and other property, and their command of language in the Southern vocabulary is really wonderful, when they can be brought to speak their minds as to the acts of the President and Congress for the last four years.

In general I may say, as the result of what I can learn, that the war did undoubtedly "end a year too soon". General Kilpatrick was more nearly right than we tho't at the time he made that statement in his great New York speech. We "let them up before they submitted completely, and now they are giving in return for our magnanimity, taunts, abuse, threats, defiance and death when the assassin's work can be done in safety." Recently three Union men have been assassinated within fifty miles of this place, by cowardly returned rebels who had taken the amnesty oath (or d——n-nasty oath as they call it) and purged it off by a dose of medicine, as they boast they always do to rid themselves of its obligation. The power of the government should have been felt by the rebels for a long time after they had been made unable to offer armed resistance. Unrepentant rebels, with traitorous hands red with the blood of our countrymen, should never hold an office of any kind under the government.

The pardoning power has been too freely used. Mercy has been evoked for the penitent returned, rebel prodigal. We should remember that such are like angels' visits. We should also remember that

"A GOD ALL MERCY is a God unjust,"

and that we have a duty to perform to the loyal men of the South, white and black, as well as to those who have exerted their efforts in the base attempt to break down the government which protected them. When mercy seasons justice, it will more perfectly do its work. It will then bless him that gives, as well as him that takes, and will "show earthly power more like God's."

The efforts of former owners of slaves to cheat them in contracts for their services, is a persistent and cruel evil, and calls for constant labor by the agents for the Freedmen's Bureau by the way of correction. I have seen many of these contracts which had been cancelled by the agent, and would give you some specimens of the deviltry of these "Christian Patriarchs", as the *very* Reverend Nehemiah Adams once delighted to call such dealers in human flesh and blood, had I space, but I forbear as I have already written at too much length.

I am going amongst the Indians next, in the vicinity of Fort Gibson, Cherokee nation, and may write a few lines from that locality. F.

DANGEROUS FRIENDS.—If ever a public man had reason to pray for deliverance from false friends, it is Mr. Johnson. Between the laudations of copperhead policicians, who never failed to exhaust on him the utmost resources of malignant abuse previous to his elevation to the Presidency, and the dangerous doctrines advanced by some of those who now pretend to support him, he is in great peril of getting into a situation that should be exceedingly repulsive to a man of such patriotic antecedents. Thus one of the most bitter of the copperhead journals which now pretend to sustain Mr. Johnson, the World, advises him to disregard the sworn obligation to execute the laws of the United States. In case the Civil Rights bill is passed over his veto, the World would have him refuse to execute it.

In the present state of the public mind, such a course would do as much toward producing anarchy and confusion as anything we can imagine. The World itself anticipates that the first result would be an attempted removal of the President by impeachment, thus confessing that an extreme exercise of doubtful power by the Executive would naturally lead to similar action by Congress. A contest of this nature, however it might terminate, would be dangerous—perhaps fatal—to the country, and good men will shrink back with horror from the thought of it.

We believe the advice thrust upon the President by the World is as repulsive to him as it is to all other loyal men. No doubt when pretended supporters of his policy exhibit the cloven foot so plainly as has the World in the article alluded to, he will feel an increased disgust towards those who libel him by attributing to him a disposition to act the despot and usurper.

—A college of the New England stamp is to be erected upon Lookout Mountain, the scene of Gen. Hooker's famous battle in the clouds. A retired merchant of New York has purchased 400 acres of land, including twenty-one buildings erected by government. It is expected that the college will be opened next May, with accommodations for eighty students.

CATARRH

CATARRH. *Testimonial of Miss Young, of Bangor.*—Under the care of Dr. Carpenter, at the Bangor House, I have been entirely cured of catarrh, with which I was severely afflicted, and my general health greatly improved. LOIS E. YOUNG.

Bangor, March 12, 1866.

The following testimonial is from Hon. Theodore Wyman, member of the Legislature from Sebec:

"After suffering from catarrh and polypus in my head for six years, I placed myself under the care of Dr. Carpenter, at the Bangor House, who removed the polypus with little pain, and after about three months treatment for catarrh, I find myself free from the complaint. When I consulted the Dr. I had copious discharges from my nose and mouth, dullness in the head and much difficulty in talking and breathing. I now have none of these troubles." THEODORE WYMAN.

Other Securities Enumerated in Annual Report,	809,528 17

Referring to the annual statement of the Company and the dividend declared February 1, 1866, we present herewith some illustrations of the system by which it was allotted to policy holders.

The Company recognizes the principle that AMPLE SECURITY is the first question in Life Insurance, and neither in form or amount will any investment be made incompatible with that principle.

In addition to the proper reserve for re-insurance of outstanding risks, there remains an undivided surplus of $1,200,000

DIVIDENDS will be declared annually hereafter, and may be used either to purchase more insurance, in reduction of premiums, or on "paid up" policies, the most desirable in CASH on the date of each policy in any year

EXAMPLES,

Showing the Annually Increasing Dividends in this Company on Life Policies of $10,000 each, other amounts in same proportion.

Age of the insured.	Year of issue.	Total premiums paid.	Total additions to 1866.	Total amount of Policy & additions	Annual percentage Cash value if insured at the age of issue and lapsing at present date

*The annual dividends on these policies exceed the annual premium. So that a holder, by applying his dividends to the payment of future premiums, has [illegible] further outlay, but his policy annually increases in amount

The dividends on policies of a more recent date, including those issued last year, to be applied in like manner to the full extent of their annual premiums.

Insurers who do not thus apply their dividends, have the full benefit of the large reductions to their policies, as shown in the above table, and may at any future period use the accumulated portions of their dividends in the payment of any one or more premiums, as they may desire.

☞ It will be noticed as a peculiarity of our system, that while the dividends are moderate at the beginning, as all dividends must be which are declared upon just and equitable principles, yet they rapidly increase each year as the [illegible] grows older, and eventually the insurance becomes paid up in full.

Endowment Policies,

Payable either at death or to the persons insured, on their arriving at specified ages.

This favorite form of insurance or investment is of a more recent date, and the following examples will suffice to show their results thus far in the MUTUAL LIFE

No. of Policy.	When issued.	Age at Issue.	Amnt	Term.	Premium	Prem. now paid.	Total Premium.	Dividend
19,949	Mar. 11, 1858	42	$5000	Pay at 50	$622 87	A.	$4,982 [illegible]	[illegible]
17,826	Jan. 14, 1857	51	5000	" 60	263 41	S. A	4,087 [illegible]	[illegible]
18,905	July 1, "	47	2000	" 55	129 09	S. A	2,065 [illegible]	[illegible]
18,153	Feb. 20, "	86	5000	" 45	541 30	A.	7,871 [illegible]	[illegible]

All of the above policies have been paid to the owners, and it will be seen that they receive a SURPLUS above all they have paid to the Company, with compound interest at six per cent., and no charge whatever for expenses or cost of insurance meanwhile

The State Gone Republican by 1000 Majority.

Gen Hawley Elected Governor.

The Legislature is Strongly Republican.

Important Proclamation by the President.

The Rebellion Declared Ended, and Civil Authority Restored.

HARTFORD, Ct., April 2.

This city gives Hawley 2512, English 2041; English's majority 479.

Hartford, April 2—9 p. m.

Hawley's majority will be from 1500 to 2000.

New London county, all but two towns, give a Republican gain of 200 over the vote for President.

New London and Windham counties elect five Union Senators, and give about 2800 majority for Hawley.

Watt, Union, is elected in the 8th district by 519 majority, and Appleman, Union, in the 9th district, by 301 maj.

Second Dispatch:

Hartford, April 2d.

English has made heavy gains, but not sufficient, it is believed by leading Republicans, to insure his election. Hawley, it is thought, is chosen, but by less than 1,000 majority.

The excitement is intense.

NEW YORK, April 2—9 p. m.

Fifty-eight towns in Connecticut have been heard from. They give Hawley 7,076, and English 5,683. The above includes New London, Hartford and Norwich.

9:30 p. m.—New Haven gives a democratic maj of 1,550.

NEW HAVEN, April 2.

In this city Hawley has 2998, and English 4548 votes.

The democratic candidate for Senator in the 15th district is elected by 20 maj.

Col. Lucien W. Sperry, democrat, is elected Mayor of New Haven.

9:10 p. m.—At this hour the republicans have both branches of the Legislature, but the Governor is doubtful. Hawley is believed to be elected by a few hundred majority.

Hartford April 2—9:30 p.m.

Hawley will have a majority of from 1500 to 2000.

Hartford 2—11 p. m.

Hartford county complete gives English 113 maj.—a gain of 325 over the Presidential vote of 1864.

New London county complete gives Hawley 914 maj.

We claim Hawley's election by one thousand maj.

Hrrtford, 3—12:25 a. m.

The vote thus far received foots up as follows

Hartford county complete—Hawley 8103, English, 8476.

New Haven county—2160 for English.

Fairfield county—4151 for Hawley, 4216 for English.

New London county—1004 majority for Hawley.

Tolland county—526 majority for Hawley.

Litchfield county—166 majority for Hawley.

Windham county—1849 for Hawley, 471 for English.

Middlesex county—1342 for Hawley, 1161 for English.

Total—Hawley 17,139, English, 16,484. Hawley's majority thus far, 655.

Hawley will probably have from 900 to 1000 maj.

Bridgeport, 2.

The following is the vote of this city:

Hawley, 1325, English, 1325. There is a Union majority on the rest of the ticket. Nathan C Wheeler, Dem., is elected by 10 maj. Union town and city officers are elected by an average maj. of 30.

Hartford April 3—2:30 p. m.

Returns from all but ten towns give Hawley 700 maj. The ten towns to hear from will probably increase his majority to 900. The Senate stands 14 Union to 9 Democrats. The Union majority will be about 60.

NEW ORLEANS, April 2.

Cotton depressed. Sales 800 bales—Receipts 2770 bales. Middling, 36@37.

NEW YORK, April 2.

The Savannah Republican announces the arrival of Hon. D. L. Yulee, late a prisoner in Fort Pulaski, he having been paroled by order of the War Department to proceed to his home in Florida. He is required to report at least once a month to the Adjutant General.

NEW BEDFORD, April 2.

Ship Ceylon, with oil and whalebone, from Honolulu, arrived this afternoon.

TRENTON, N. J., April 2.

The members of the Legislature have not arrived. The town is filling up fast with visitors. The Senatorial question is the topic of interest. Cattell and his friends will not recede. Scovel has intimated a list of candidates acceptable to him, not including himself. No action was taken to-night, but a movement will be probably made to-morrow.

WASHINGTON, April 2.

By the President of the United States:

A PROCLAMATION.

Whereas, by proclamations on the 15th and 19th of April, 1861, the President of the United States, in view of the power vested in him by the Constitution and the laws, declared that the laws of the United States were opposed and the execution thereof obstructed, in the States of South Carolina, Georgia, Alabama, Florida, Mississippi, Louisiana and Texas, by combinations too powerful to be suppressed by the ordinary course of judicial proceedings or the powers vested in the marshals by law; and,

Whereas, by another proclamation, made on the 16th day of August in the same year, in pursuance of an act of Congress approved July 13, 1861, the inhabitants of Georgia, South Carolina, Virginia, North Carolina, Tennessee, Alabama, Louisiana, Texas, Arkansas, Mississippi and Florida—except the inhabitants of the State of Virginia lying west of the Alleghany mountains, and to such other States before named, as might maintain a loyal adhesion to the Union and Constitution, or might from time to time be occupied and controlled by the forces of the United States engaged in the dispersion of the insurgents—were declared to be in a state of insurrection against the United States; and,

Whereas, by another proclamation on the 1st day of July, 1862, issued in pursuance of an act of Congress approved June 7, in the same year, the insurrection was declared to be still existing in the States aforesaid, with the exception of certain specified counties in the State of Virginia; and,

Whereas, by another proclamation, made on the second day of April, 1863, in pursuance of an act of Congress of July 13, 1861, the exceptions named in the proclamation of August 16, 1861, are revoked, and the inhabitants of the States of Georgia, South Carolina, North Carolina, Tennessee, Alabama, Louisiana, Texas, Arkansas, Mississippi, Port Royal and Beaufort in South Carolina, are declared to be in a state of insurrection against the United States, and,

Whereas, the House of Representatives, on the 22d day of July, 1861, adopted a resolution in the words following, viz:

Be it resolved by the House of Representatives in Congress assembled, That the present deplorable civil war has been forced upon the country by the disunionists of the Southern States, now in revolt against the constitutional Government, and in arms around the capital; that in the emergency, Congress, banishing all feeling of mere passion or resentment, will recollect only its duty to the whole country; that this war is not waged on our part in any spirit of oppression, nor for any purpose of conquest or subjection, nor for the purpose of overthrowing or interfering with the rights or established institutions of these States, but to maintain and defend the supremacy of the constitution, and preserve the Union, with all the dignity, equality and rights of the several States, unimpaired; and that as soon as these objects are accomplished the war ought to cease; and,

Whereas, the Senate of the United States, on the 25th day of July, 1861, adopted a resolution in the following words, viz:

Resolved, That the present deplorable civil war has been forced upon the country by the disunionists of the Southern States now in revolt against the constitutional Government, and in arms around the Capital. At this national emergency, Congress, banishing all feeling of mere passion or resentment, will recollect only its duty to the whole country; that this war is not prosecuted on our part in any spirit of oppression, nor for any purpose of overthrowing or interfering with the rights or institutions of those States, but to defend and maintain the supremacy of the Constitution and all the laws made in pursuance thereof, and to preserve the Union with all its dignity, equality and rights of the several States unimpaired; that as soon as these objects are accomplished the war ought to cease; and

Whereas, these resolutions, though not joint or concurrent in form, are substantially identical, and as such may be regarded as having expressed the sense of Congress upon the subject to which they relate; and

Whereas, by my proclamation of the 13th day of June last, the insurrection in the state of Tennessee was declared to have been suppressed, and the authority of the United States therein to be undisputed, and such United States officers as had been duly commissioned to be in the undisputed exercise of their official functions; and

Whereas, there now exists no organized armed resistance, of misguided citizens or others, to the authority of the United States, in the States of Georgia, South Carolina, Virginia, North Carolina, Tennessee, Alabama, Louisiana, Arkansas, Mississippi, and Florida, and the laws can be sustained, and therein by the proper civil authority, State or federal, and the people of said States are well and loyally disposed, and have conformed or will conform in their Legislatures to the condition of affairs growing out of the amendment to the constitution of the United States, prohibiting slavery within the limits or jurisdiction of the United States, and

Whereas, in view of the before recited premises, it is the manifest determination of the American people that no State of its own will has the right or power to go out of or separate itself from, or be separated from the American Union, and, that, therefore, each State ought to remain and constitute and integral part of the United States, and,

Whereas, the people of the several before mentioned States have in the manner aforesaid given satisfactory evidence that they acquiesce in this sovereign and important revolution of the national unity, and,

Whereas, it is believed to be a fundamental principle of Government that a people who have revolted, and who have been overcome and subdued, must either be dealt with so as to induce them voluntarily to become friends, or else they must be held by absolute military power, or devastated so as to prevent them from ever again doing harm as enemies, which last named policy is abhorrent to humanity and freedom, and,

Whereas, the constitution of the United States provides for constitutional communities only as States, and not as territories, dependencies, provinces or protectorates, and,

Whereas, such constituent States must necessarily be, and by the Constitution and laws are, made equals, and placed on like footing as to political rights, immunities, dignity and power, with the several States with which they are united; and,

Whereas, the observance of political equality as a principle of right and justice, is well calculated to encourage the people of the aforesaid States to be and become more and more constant and persevering in their renewed allegiance; and,

Whereas, standing armies, military occupation, martial law and suspension of the writ of habeas corpus, are, in time of peace, dangerous to the public liberty, incompatible with the individual rights of citizens, contrary to the genius and spirit of our free institutions, and exhaustive of the national resources, and ought not, therefore, to be sanctioned or allowed, except in case of actual necessity, for repelling invasions or suppressing insurrection or rebellion; and,

Whereas, the policy of the Government of the United States, from the beginning of the insurrection to its overthrow and final suppression, has been in conformity with the principles herein set forth and enumerated.

Therefore, I, Andrew Johnson, President of the United States, do hereby proclaim and declare that the insurrection which heretofore existed in the States of Georgia, South Carolina, North Carolina, Virginia, Tennessee, Alabama, Louisiana, Arkansas, Mississippi and Florida, at an end, and henceforth to be so regarded.

In testimony hereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 2d day of April, in the year of our Lord, eighteen hundred and sixty-six, and of the independence of the United States the ninetieth.

(Signed) ANDREW JOHNSON.

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, April 2.

Senate.

Mr Wilson, from the Military Committee, reported the bill to equalize bounties, in a new draft. It was recommitted. It gives every soldier in the late war $8¾ per month bounty, minus amounts already paid. Home guards or troops called for local service, are excepted therefrom, and no money will be paid out under the act to any claim agent or attorney.

Mr Sumner offered a resolution, calling upon the Postmaster General and Secretary of the Treasury to report whether since December last any persons have been permitted to enter on the duties of office without taking the oath required by law.

Mr McDougall objected, and the resolution went over.

Mr Fessenden, from the Finance Committee, reported the Loan bill, without amendment.

A bill was reported from the Military Committee authorizing $200,000 to be placed to the credit of California paymasters on account of the loss by the wreck of Steamship Brother Jonathan.

A bill was reported authorizing the United States to be represented in the Health Congress at Constantinople.

A bill was introduced classifying and graduating invalid pensions. Referred.

The bill granting land for the completion of the railroad from Pilot Knob to the southern boundary of Missouri, was passed.

The bill reorganizing the Judiciary of the United States, with amendments, was taken up; three or four amendments were adopted, and pending its further consideration, the Senate adjourned.

House.

Bills were introduced to continue in service the acting medical officers in the navy, to supply vacancies in the regular list.

To aid in the construction of a railway and telegraph line from Puget's Sound to Columbia river.

To declare and protect all privileges and immunities of citizens of the United States in the States.

All were referred.

The resolutions formerly introduced by Mr Rogers relative to U. S. securities came up, and were slightly modified by another, and referred to the ways and means Committee.

A resolution was adopted that the Military Committee have leave to report a bill for the equalization of bounties of soldiers and sailors.

The resolution offered by Mr Pike, on the 19th ult., requesting the Secretary of the Navy to send a sufficient naval force to the fishing grounds to protect our citizens in the enjoyment of their rights as recognized by the treaty of 1783, came up and was modified by the mover, at the suggestion of Mr. Morrill, by adding the words "and by subsequent treaties," and on motion of Mr Raymond, referred to the Committee of Foreign Affairs, with leave to report at any time.

Mr Raymond offered a joint resolution for the appointment of a Commission of five persons to report at the next session of Congress, on the necessity of some more rapid, cheap and reliable means of transportation between the Western States and the Atlantic seaboard, and submit some plan whereby the National Government can aid therein. The Commission are to receive no pay except actual travelling expenses.

The resolution went over under rules.

Mr Davis' resolution, previously offered, expressing confidence in the patriotism and ability of the President and pledging the support of the House to his policy of reconstruction, came up.

Mr Raymond spoke until the end of the morning hour, when the resolution went over.

The Army bill was postponed until the 12th inst.

A resolution was passed directing the Committee on Printing to report what reforms are needed in the printing department, and if any measures have been taken to confiscate the Corcoran Art building.

The bill for the punishment of counterfeiting was passed.

Several bills were reported and referred.

A resolution was adopted requesting the President to inform the House whether any efforts have been made to collect the Union dead who fell in and around Atlanta.

A bill regulating the pay of the officers and soldiers of the army was referred to the Military Committee.

The bill making Calais, Me., a port of entry was read twice and referred to the Committee on Commerce.

Adjourned.

—Portugal controls 900 miles of the eastern coast of Africa, and carries on the slave trade quite briskly.

—Horace Greeley, in a recent address said, that slavery being dead, the Democratic party which had lived on slavery, had no longer any right to live.

Of J B Ayer and als for gas light near the corner of Cumberland and French streets. Referred to committee on gas lights.

Petition of M. Schwartz and others for an increase of the number of the Policemen of the city. Referred to committee on By-laws and Police Regulations.

Petition of Perkins & Stevens and als for the appointment of James J. Smith City Agent for sale of intoxicating liquors. Laid on the table.

Petition of Wm Torsey for relief was referred to the Committee on Accounts and Claims.

An order was passed referring so much of the Mayor's Address as relates to intemperance, to a joint special committee, and Aldermen Wingate, Godfrey and Williams on the part of the Board of Aldermen, and Messrs J C White, Burleigh Pease, S F Jones, B O Foster and Wm M Davis, on the part of the Common Council, were appointed said committee.

Adjourned to Monday evening, two weeks, at 7½ P. M.

THOSE GUNS. We haven't heard any Democratic guns over the Connecticut election. They fire upon the reception of veto messages, but of late years they don't fire upon the reception of election news.

PEWS TO RENT. The pews in the Central Congregational Church, the Rev. Mr. Field, will be rented this evening at 7½ o'clock.

EDWIN LEE BROWN, formerly of this city, is President of the Young Men's Association at Chicago. It is an institution for mutual improvement, and embraces an extensive library and reading room.

THE ICE left the river yesterday morning at an early hour. Subsequently the steamer Katahdin came up and will leave for Boston to-day at 11 o'clock. Navigation may be said to have fairly opened, and we trust it will give an impetus to business.

SALES OF REAL ESTATE. Considerable real estate has changed hands in our city within a few weeks past. The residence of the late Dr. Rich, on State Street, was sold some ten days since to C. G. Stearns, of Brower, for $12,000.

The Allen Gilman house on State Street was sold recently to Michael Schwartz, of this city, for the sum of $12,000.

G. L. Boynton has disposed of his two stores on Exchange Street, one to Messrs. Howard & Bradley, the other to J. H. Bowler, and each, we believe, for the sum of $4,500.—[Times.

THE BAL MASQUE. Interest in this affair has greatly augmented since the arrival of Messrs. Custis & Woodbury, fashionable costumers, from Boston. It now promises to be everything its projectors could wish. The arrangements have been conducted in a most unexceptionable manner, and in accordance with the rules in vogue in fashionable circles elsewhere. A reference to these, published in our special notice column, will establish this fact. Supper will be furnished in Wilder's Hall, (in the same building with the main hall,) tickets for which should be purchased of the caterer, Mr. Duckworth.—[Times.

We understand that the costumes brought here from Boston for the Levee to-night are nearly all disposed of, and that there is every prospect that it will be decidedly successful. We trust that it may prove a pecuniary benefit to Mr. Spencer.

LIFE INSURANCE. No branch of business in the country is increasing more steadily or rapidly than that of life insurance. Thousands and tens of thousands, who once tho't it a mistaken immorality to secure their families a sum of money payable at their death, are now acting on the principle that it is absolutely wrong not to do so. Our crowded advertising columns contain substantial evidence of the great popularity and prosperity of several of the leading life insurance corporations of this city; but the first and foremost among them all is the "Mutual Life Insurance Company of New York," of which Frederick S. Winston, Esq., is President. This institution now shows (see their annual statement in another column) nearly fifteen millions of dollars in cash assets, or a gain of over three millions during the past year; and this large amount is safely secured on government stocks, on bond and mortgage, and on real estate worth double the amount loaned. Its profits are all divided annually among the policy-holders, and have been larger than those of any other company known. The company takes no notes on policies issued, but requires cash in all cases. We have not space for particulars in detail, but beg leave to state to every reader of this journal that there is no better managed or more responsible corporation on this continent than the Mutual Life Insurance Company of New York.—[New York Independent.

Charles P. Wiggin, Esq., at the office of the Penobscot Mutual Fire Insurance Company, is agent for the above named company. Attention is directed to his advertisement in another column.

—Some of the members of Portland Commandery presented a beautiful sword and belt to Eminent Commander Franklin Fox, Esq., on the night of his installation. The presentation speech was made J. B. Fillebrown, Esq., which was handsomely responded to by Mr. Fox.

HARD FEED. The Portland Star states that a man was choked to death in New York while eating a steak. Don't wonder.

BANK DIVIDENDS The Casco National Bank, and the Merchants National Bank, of Portland, have declared dividends of five per cent. after paying government taxes.

—The Portland Advertiser rejoices in the belief that President Johnson is about to remove from office the men who elected him to power, and replace them with those who sought his life and the life of the Nation all through the war.

—We learn that Thursday night the Railroad Depot at Yarmouth was entered by rogues, and a quantity of Railroad tickets stolen. The villains stole a horse and old style chaise and drove off. They are known, and will probably be apprehended.—[Lewiston Jour.

WESTBROOK. Among the buildings to be erected in Westbrook this season, is a Universalist Church at Morrill's Corner, for which the money is nearly all raised, and a lot is being selected. Also a School House at Woodford's Corner, to cost from $8,000 to $10,000.—[Portland Argus.

—"A war of races" is the bugbear which seems most to alarm the President, and the method by which he proposes to obviate this danger is to deliver the one race bound hand and foot, into the power of the other. Of course if all power of self-defence be taken away from the colored man he must needs submit, no matter to what extent he may be oppressed, but in that case we can have no war of races! The wolves will keep the sheep in order. We shall have peace!—[Press.

—It is asserted that Senator Morgan will vote for the Civil Rights bill when it comes up in opposition to the veto; also Senator Lane of Kansas.

—The Syracuse Courier of Saturday announces the sudden death of the wife of Gen John A Green. She fell from a chair while lighting the gas, and singular as it may seem, sustained injuries which resulted in her death instantly.

—The first church in Rochester, N. Y., (Presbyterian) was organized in 1815, only 51 years ago, and yet at the time of its organization it was the only church within an area of 400 square miles.

—An American student, Francis A. Channing, of Boston, has lately taken the Arnold prize at Oxford, England, for an English essay. The prize amounts to $210, and is open to all Oxford graduates of less than eight years standing.

—The Washington and Georgetown horse railroad has, during the past year, declared dividends of seventy-five per cent. on the amount of capital paid in, yet the directors are asking Congress to release them from the obligation in their charter to issue transfer tickets as a return for the free passes given to each Senator and Representative. The value of the transfer tickets issued last year was $116,434, which would be a pleasant addition to the income of the company.

—The death of a German veteran who served under the great Frederick in the seven years' war, is announced. He died at the respectable age of one hundred and twenty, at the hamlet of Slaude, in Upper Silesia. His name was Laurence Halacz.

—Harvey Mansfield of Bristol, Vt., while filing a saw with his gloves on, stopped to rub his eyes, and so filled them with the steel filings that had accumulated upon his gloves that it is feared he will entirely lose his sight.

—Notwithstanding the frequent exposures which gift enterprise swindles have received in the public press, they appear to flourish as heretofore, bearing out the old adage that "as long as there are fools in the world there will always be knaves."

—A young American lady, brought up in the Christian faith, joined the Jewish Church at Chicago a few days ago.

—Milk may be kept sweet by having it constantly in the presence of fresh water. In a milk room provided with tubs, in which the water is changed twice a day, milk will not be soured even by lightning.

—Among the "hen-persuaders," machines for cutting off the tops of eggs, picking the dirt from keys and the like, should be placed a recent invention, by an Englishman, of a machine for teaching children how to walk.

—Brigham Young has a fine garden. The editor of the Salt Lake Telegraph says that on two and a half acres President Young raised last year 850 bushels of peaches, 400 bushels of apples, 22 bushels of plums, 25 bushels of strawberries, 2 bushels of pears, 25 pounds of cherries, 1,875 pounds grapes, and gooseberries, raspberries and currants in multitude.

—The extension of the boundaries of your knowledge, unlike the extension of the boundaries of your farm, never narrows or extinguishes the possessions of your neighbor.

—Money and time are the heaviest burdens of life, and the unhappiest of all mortals are those who have more of either than they know how to use.—[Johnson.

—It is stated that smugglers have laid pipes across the St. Lawrence river, and are engaged in pumping whisky from Canada into the United States. This looks like "running the thing into the ground."

—One of the chief features of the late meeting of the Kentucky conference of the Methodist Episcopal church was the admission of five colored preachers, who were taken in on trial for full membership by unanimous consent. They are to be organized into a district under a white presiding elder, and may ultimately be the members of a conference of colored preachers.

DUEL IN KENTUCKY. A special despatch to The Cincinnati Enquirer says that "the long deferred duel between Captain Kimbrough and Joe Dasha, both of Cynthiana, took place at Denrai, in Fayette county, at 5 o'clock, March 26, and will result fatally for one of the parties. Captain Kimbrough was, on the first fire, shot through and through the hips, the ball terribly mashing the hip bones. The pistols were the large dueling pistols used in the meeting years ago between Henry Clay and Randolph."

The copperhead press claim that Mr English ought to be elected Governor of Connecticut, because he voted, while a member of Congress, for certain measures designed to squelch the rebellion. If that is a valid reason in his case what do they say to Gen'l Hawley, the Union candidate, who perilled his life on the field and won the right to wear a "star" by bold and determined bravery.—[Lewiston Journal.

SEELY'S

Patent Metallic Sole.

A NEW INVENTION.

WETTING THE FEET is the most prolific cause of disease and death known to humanity. It is almost sure to bring on a cold; and colds, neglected, and often when not neglected, lead to fevers or to coughs and fatal consumptions. It is in recognition of this truth that the inventive talent of the country has for years been devising some method, or attempting to devise it, for keeping the feet dry, and yet that should not give inconvenience to the wearer. Rubber shoes, in one form or another, have hitherto been our reliance; but all is well known, as among their many evils, that while they keep the feet dry from external moisture, they sweat them overmuch, and by thus inducing an undue tenderness increase a susceptibility to colds rather than otherwise.—They are also cumbersome to the feet, and withal are very expensive. The demand is for something that shall make the ordinary Boot and Shoe impervious to water, without effecting their elegance or durability, and, if possible, without adding sensibly to the cost of manufacture. These, it will be conceded, are most important features, and we conscientiously affirm that they are absolutely attained in the invention here with presented to the public.

The invention consists in inserting between the inner and outer sole, when the boot is making, a thin METALLIC PLATE, exceedingly ductile, comprising flexibility with toughness, very light, and every way adapted to the end desired, while the additional expense is merely nominal. It furnishes a perfect barrier against the admission of wet or dampness, though the feet may be exposed ever so long upon wet pavements or damp ground.

To ladies and children the METALLIC SOLES will be of incalculable value, as from their habits of life and delicacy of dress, they are particularly exposed to the long train of ills that attend upon an inadequate protection to the feet.

These Soles have already been tried by the best of all tests, ACTUAL USE, and the testimonials to their merits, freely proffered, indicate that they must be speedily and universally adopted by the public. The Patent Metallic Soled Boots and Shoes are being introduced into the leading Boot and Shoe Stores throughout the United States, and will supplant all forms of overshoes, except possibly for deep mud and snow, as they become known. Be sure to get them and no other. If your shoemaker does not happen to have them, he can procure them without difficulty. If he will not, then send yourself to the inventor, the dollar and thirty cents, and obtain six pair, assorted sizes, with right to use, which will be promptly forwarded by mail or express, pre-paid, and which can be made up by any shoemaker in the country. Agencies will be established in every city and village, and supplied with Soles and proprietary stamps, at schedule prices, and liberal commission allowed on sales. Also General Agencies for States appointed on application, with proper testimonials to the inventor.

Samuel J. Seely,

General Depot, corner City Hall Place and Read street, New York.

TESTIMONIALS.

The undersigned have for the past six months worn Boots and Shoes possessing Mr. Seely's METALLIC SOLE, and find them to be as effectual preventive against dampness, and the colds so often taken from damp feet, most gladly do we testify to the perfect efficiency of their service. The Metallic Sole is not only a grand contribution to the cause of general health, but a *positive luxury*, obviating all necessity of India Rubber shoes, except in muddy weather. All ordinary dampness, and even water upon pavements, is completely foiled of its power of harm by this most simple and useful invention. No one who has once used them will ever be without them again, as they increase the cost of boots and shoes by a sum which is scarcely worth naming, and insure, positively, dry feet, which is reckoned among the first conditions of health and comfort. We heartily commend the "Metallic Sole" to all the sensible.

J. CLEMENT FRENCH,
Pastor Central Cong. Church, Brooklyn.
MARY A. FRENCH.
NEW YORK, Dec. 1865.

SAMUEL J. SEELY, Esq.:

Dear Sir—In reply to your inquiries regarding your Patent Metallic Sole, I take great pleasure in stating that I had them put in a pair of fine calf skin boots, which I wore the whole of last winter in the wet streets of Albany. I have had them half soled since, and am wearing your Metallic Soles now, with full intention *never* to be without them. I have not had a wet or damp foot during the whole time I have worn them. I pronounce them the best insole yet made. I am satisfied that no person having once worn them will do without them.—Wishing you the success you deserve for so valuable an invention for the preservation of health,

I remain truly yours,
SAMUEL JEFFERSON,
Contractor, New York.

MR. SAMUEL J. SEELY:

Dear Sir—I take great pleasure in offering my testimony to the usefulness and comfort of your patent Metallic Sole. I have used a pair of boots for the past seven months, furnished with this Sole, and feel no hesitation in saying that I have never worn shoes that combined so perfectly the desirable qualities of dryness and durability.

EMMA OVERTON, Brooklyn, New York.

S. J. SEELY, Esq.:

Dear Sir—In answer to your request, I am pleased to state that I have manufactured shoes containing your Metallic Sole by machinery. I think them a superior article for keeping the feet dry. In manufacturing them there is no trouble from cutting the thread when sewing, nor any difficulty in putting them in the shoe. Respectfully yours,

Practical Shoe Manufacturer,

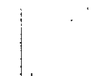
NICHOLS HOUSE.



The undersigned having leased, for a long term, and thoroughly renovated and refitted the NICHOLS HOUSE late "Dwinel House" in Bangor, has this day re-opened the same to the public accommodation.

This Hotel is centrally located, and in close proximity with the Boats and Cars.

The Proprietor has had a long experience in the "Parker House," of East Corinth, and the "Shaw House," of Newport, and flatters himself that to all patrons he will furnish an agreeable and comfortable home. Every effort and expense will be used to make this House as popular and attractive as any in this section of the State. Having lately purchased the large and enterprising

Livery Establishment

Lately owned by CALEB BILLINGS, Esq., the same will be carried on in all its departments in connection with said Hotel. The undersigned will be ready to furnish teams of all descriptions, and will extend all accommodations to those who may favor him with their calls.

☞ Coaches in readiness for any business at all hours.

Stages leave this House daily for all parts of the country.

☞ Orders may be left at the House, or at the Stable office, where a reliable man will hereafter be found to attend upon the wants of customers.

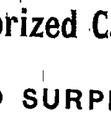
Lease and Fixtures for Sale

—OF THE—

AUGUSTA HOUSE.



The undersigned being compelled (on account of ill health) to relinquish Hotel business, offers for sale the lease and a portion of the furniture of said House.

This Hotel ranks among the first in the country, and commands a large proportion of the travel. It has one hundred twenty-five rooms, perfectly ventilated and substantially furnished. Attached to the house are Bathing Rooms, Shaving and Billiard Saloons, &c.

In connection with the house is a large and convenient Stable, and a first livery stock.

To any one desirous of entering the hotel business, will find this a rare opportunity with comparatively a small capital.

HARLOW ST., BANGOR, MAINE,

A. T. CHICK, - - Proprietor,

THIS House is situated in the most business part of the City, and is now open to the Traveling Community.

The Proprietor hopes by strict and personal attention to receive a liberal share of patronage.

The tables will be furnished with the best the Market affords, and every attention paid to the wants of his guests.

There is attached to this House a good STABLE, with attentive Ostler. Charges moderate.

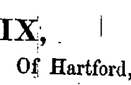
FRANKLIN HOUSE,

Harlow Street, Bangor, Maine.



This well and favorably known Hotel, having the past season been enlarged, remodeled and refurnished, has now all the appointments of a first class Hotel.

The subscribers, having leased the above House for a term of years, and having had several years experience in the business, flatter themselves, by strict and personal attention, to merit a liberal share of public patronage.

In location, this house has no superior, being in a central position, and on one of the pleasantest streets in the city. In connection is a large and commodious Stable, in the care of attentive Ostlers; also a Livery Stable, which will always be supplied with first class teams.

☞ Stages leave the house daily, for all parts of the country.

DR. LAROOKAH'S

Sarsaparilla Compound,

For the Speedy and Permanent Cure of

Liver Complaints, Scrofula or King's Evil, Eruptions, and all Eruptive Diseases of the Skin, St. Anthony's Fire, Salt Rheum, Pimples, Pustules, Blotches and Boils; Rheumatic and Neuralgic Pains in the Bones, Side and Head; for the various Weaknesses to which Females are liable; Dyspepsia, Debility, Emaciation, Dropsy, and all diseases resulting from or in an impure state of the Blood.

IT is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Dead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by *Scrofula* taint, this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula, which deranges the stomach, and renders it unhealthy. Indigestion is not always caused by Scrofula, when it is, this Sarsaparilla Compound is a ready cure.

NEURALGIA, HEADACHE and various disorders of the nervous system frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

ERYSIPELAS, Boils, Tumors, or Salt Rheum, Ulcers, Sores, &c. Moderate doses three times a day will usually effect the cure of the above complaints, but often requires considerable time.

Price one dollar per bottle. Six bottles for five dollars.

Price 50 Cents and $1.00 per Bottle.

DR. KNIGHTS'

Oriental Hair Restorer

After a long series of experiments, this article, as it is now offered to the public, is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands, who, from sickness or other causes, have become prematurely grey; and others, who, in the sere and yellow leaf of life, would retain, as far as possible, the semblance of youth. DR. KNIGHTS' ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color*, and is the only preparation of the kind upon which the public can place any reliance. *It has never been known to fail in a single instance*, and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

PRICE 75 CENTS PER BOTTLE.

American & Foreign Patents,

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

No. 78 State Street, (opposite Kilby street,) Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS:

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such his part ieade me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
